

OctopusShield

CERTIFICATE OF

AI-Driven Security Testing & Validation

This certifies that the **OctopusShield** brand-impersonation & phishing-defense platform has undergone **continuous, exhaustive adversarial testing and validation by independent AI systems** — spanning security, detection accuracy, resilience, and code integrity — and has met the internal validation criteria of the OctopusShield engineering program.

Security & access controls

Detection accuracy (IDN · leetspeak)

Resilience & chaos endurance

Code integrity & supply-chain

ISSUED

2026

ISSUED BY

OctopusShield · Çelebi Bilişim Ltd.

Self-issued internal validation attestation of AI-driven testing. Not an accredited third-party certification (e.g., SOC 2, ISO 27001) — those are in progress.
Verifiable methodology available on request.
