

OCTOPUSHIELD

CERTIFICATE

of AI-Driven Security Testing & Validation

THIS IS TO CERTIFY THAT

OctopuShield — Brand-Impersonation & Phishing Defense

has undergone **continuous, exhaustive adversarial testing and validation by independent AI systems**, covering security & access controls, detection accuracy, resilience, and code integrity, and has met the internal validation criteria of the OctopuShield engineering program.

Security & access controls

Detection accuracy (IDN · leetspeak)

Resilience & chaos endurance

Code integrity & supply-chain

OctopuShield Engineering

VALIDATION AUTHORITY

2026

DATE OF ISSUE

Self-issued internal validation attestation of AI-driven testing, issued by OctopuShield (Çelebi Bilişim Ltd.). Not an accredited third-party certification (e.g., SOC 2, ISO 27001) – those are in progress. Verifiable methodology and evidence available on request.
